Seeking a Summer 2018 internship to gain valuable work experience in computer science. I work well in teams to solve challenging problems.

## Education

### Illinois Institute of Technology

#### BS Computer Science

Expected Graduation: December 2018

Heald Scholarship Recipient

### Metea Valley High School

High School graduate

Illinois Prairie State Scholar

## Skills

Programming Languages:

- C
- Java
- Python
- SQL
- HTML
- CSS
- PHP

## Experience

Varosha, Web Design and Webmaster:

Varosha is a Chicago based 501(c)3 non-profit that runs schools and training centers in impoverished areas in India. I was tasked with completely redesigning and updating the website to include social media and online payment options. I am responsible for all updates and changes to the website.

<http://varosha.org/>

## Projects

- Developed code to computer multiple Euler problems
- Designed a malloc that outperforms the linux malloc in some cases

<https://github.com/shijinko/shijinko.github.io>

## Other Information

- Play viola and piano
- Hosted a college radio show about music, politics, and current events
